Model : G 300V

Helping You Manage Pet Diabetes !

Specifications

Feature	Technical Specifications
Model No.	G 300V
Methodology	Electrochemistry (Amperometry)
Measuring Time	5 seconds
Sample Volume	0.5 μ l
Sample Type	Capillary and Venous Blood
Species	Dog , Cat
Measuring Range	10 ~ 900 mg/dL
Memory	1,000
Hematocrit range	10 ~ 70 %
Calibration	Dog, Cat code key
PC Interface	Yes
LED Indicator	Indication LED lighting
Operating Condition	4 ~ 40 °C / < 85% R.H
Altitude	4,000 M
Battery	CR-2032 (1 coin battery)
Dimensions (WxLxT)	53.6 x 94 x 14.9 mm
Weight (+Battery)	35 g

Comfortable, Hygienic

Species Specific

The CERA-PET™ is specifically calibrated and validated for dogs and cats.

	Human Blood Glucose Results	Canine (Dog) Blood Glucose Results	Feline Blood Glucose Results
CERA-PET™ BGMS	N/A	Accurate (code for dog)	Accurate (code for cat)
Human BGMS	Accurate	May underestimate glucose	May underestimate glucose

High Performance

The CERA-PET™ is excellent and accurate performance characteristics comply with strengthened ISO quality standard in the detection range of 10~900 mg/dL.
