NEW HUMASCOPE LINE - NEXT GENERATION

For several years now HUMAN has been successfully selling HumaScope microscopes worldwide.

During this time HUMAN has become recognized worldwide as a successful supplier of microscopes.

As part of our plan to continue to develop this business segment, HUMAN is introducing a brand-new microscope line with attractive new models: the **HumaScope Next Generation**.

HUMAN is proud to present to you today these new microscopes. The new instruments are designed to cover a broad range of fields of application and customer segments and their modern design and features offer everything required of a modern microscope by the worldwide market.

The NEW HumaScope Line stands out for this:

- > state-of-the-art technology
- > high quality and durability
- > modern and ergonomic design
- > improved ease of operation and enhanced features
- > wide range of accessories
- > appealing design
- > excellent price-performance ratio
- > flexibility for the tender business.

Overall, these are versatile microscopes, suitable for any laboratory.

In the following we would like to show you the **HumaScope NEXT Generation** in detail. In addition, you may refer to the attached flyer for more technical specifications.

HUMAN is confident that the new line will become very successful. Furthermore, we are sure that the new concept and its implementation will make the **HumaScope Next Generation** highly competitive, helping you to expand your market share in this area and increase your sales significantly!

- (1) HumaScope Premium
- (2) HumaScope Advanced
- (3) HumaScope Classic
- (4) HumaScope Light

Product of the Month

NEW HUMASCOPE LINE - NEXT GENERATION

HUMASCOPE PREMIUM (CAT. NO. 14300)

Product of the Month

NEW HUMASCOPE LINE - NEXT GENERATION

HUMASCOPE ADVANCED (Cat. No. 14200)

HUMASCOPE CLASSIC (Cat. No. 14100)

Routine microscopes for general use in laboratories and doctors' practices.

HUMASCOPE ADVANCED (Cat. No. 14200)

Plan achromatic objectives

4x, 10x, 40x, 100x (oil)

5 positions reverse

HUMASCOPE CLASSIC (Cat. No. 14100)

Semi plan achromatic objectives

4x, 10x, 40x, 100x (oil)

5 positions reverse

- > Proven HumaScope concept with modern, precision mechanics and optics
- > Koehler illumination
- > Robust construction
- > Upgradeable

COMPARABILITY TO CURRENT HUMASCOPE LINE:

If you currently buy the HumaScope (Cat. No. 16100) we recommend a replacement with HumaScope Classic (Cat. No. 14100) which even has a better optic and a 5 positions reverse.

HumaScope (Cat. No. 16100)

Achromatic objectives

4 positions forward

HumaScope Classic (Cat. No. 14100)

Semi plan achromatic objectives

5 positions reverse

If you currently buy the HumaScope Plus (Cat. No. 16200) you should replace it by the HumaScope Advanced (Cat. No. 14200)

HumaScope Plus (Cat. No. 16200)

Semi plan achromatic objectives

5 positions reverse

HumaScope Advanced (Cat. No. 14200)

Plan achromatic objectives

5 positions reverse
